**Chief Patron: Walter A. Stosch**

**Summary:**

In-state tuition; limitation on eligibility. Provides that students entitled to in-state tuition will be assessed a surcharge upon satisfactorily completing 125% of the student's program. The surcharge will be an amount calculated to equal 100% of the average cost of the student's education at the relevant institution less tuition and mandatory educational and general fee charges assessed to a student meeting Virginia domiciliary status who has not exceeded 125% of the time-to-completion for his program. A waiver of the surcharge may be granted by the State Council of Higher Education upon a determination that an extenuating circumstance, such as, but not limited to, illness or disability or active service in the armed forces of the United States, has delayed the student's progress towards graduation. A second enactment clause requires SCHEV to revise its guidelines for determining in-state tuition charges, which are not subject to the Administrative Process Act, to include these requirements by July 1, 2006, including, but not limited to, notice to students who may be or may become subject to the surcharge and determinations of extenuating circumstances.
