The bill also sets forth how such mandatory outpatient treatment will be monitored and how a minor's noncompliance with such treatment will be addressed, and clarifies that the judge who presides over any noncompliance hearing does not have to be the judge who presided over the mandatory outpatient commitment hearing. The bill also clarifies that the commitment criteria for minors, and not the criteria for adults, apply when the emergency admission of a minor is sought under the procedures for the emergency admission of an adult set forth in Article 4 (§ 37.2-808 et seq.) of Chapter 8 of Title 37.2. The bill also provides that a minor who has been properly detained by a juvenile and domestic relations court may petition for voluntary admission and treatment of mental illness. Currently, such detained minors may not voluntarily seek admission. The bill further requires that if a minor is in a detention home or shelter care facility when admitted to a mental health facility, the director of the detention home or shelter care facility or his designee shall provide, if available, certain information relating to the minor to the mental health facility and to the juvenile and domestic relations district court for the jurisdiction in which the facility is located if such court is different than the court that placed the minor in detention or shelter care. The bill also clarifies the circumstances under which the qualified evaluator who examined the minor must attend the minor's hearing and under what circumstances the evaluator's report is admissible.
