

2017 UNDERGRADUATE ENROLLMENT STATISTICS

THE UNIVERSITY OF VIRGINIA IS ONE OF ONLY TWO PUBLIC UNIVERSITIES NATIONWIDE TO MEET FULL FINANCIAL NEED FOR ALL STUDENTS.

This commitment enables us to offer admission on a financial need-blind basis. A student's family finances are reviewed for financial aid consideration only after an offer of admission has been extended.

The University considers offering need-blind admission and meeting 100% of financial need for all students to be cornerstones of a best-in-class enrollment strategy. Both are critical to the University's success in an intensely competitive and selective college admission market.

The University maintains an approximate 70/30 ratio of in-state to out-of-state students. This is consistent with our mission as a public institution that serves the educational needs of both the Commonwealth and the nation.

UNDERGRADUATE ENROLLMENT STATISTICS FOR FALL 2017:

- / **4,348** Virginians were offered admission to UVA as first-year students; **2,537**, or **58%**, enrolled. **1,811** Virginians were offered admission but chose not to enroll.
- / An additional **1,170** first-year Virginians, who were initially placed on the waitlist, were offered admission to the College at Wise with a guarantee to enroll at UVA in Charlottesville for their final two years of college.
- / **734** Virginians were offered admission as transfers, **576** of whom enrolled.
- / Overall, **6,252** Virginia students were offered the opportunity to enroll at UVA in 2016.
- / The admission offer rate for Virginia first-year and transfer students was nearly **45%**, compared to **23%** for non-Virginians. So, nearly 1 of every 2 Virginians applying to UVA was offered admission.
- / According to publicly available data among **UVA, William & Mary, James Madison University** and **Virginia Tech**, a student who submitted applications to all four institutions had a **95% chance of being offered admission to at least one**.

SINCE FALL 2008, UVA HAS INCREASED ON-GROUNDS UNDERGRADUATE ENROLLMENT BY 2,272 STUDENTS, 74% (1,685) OF WHOM ARE VIRGINIA RESIDENTS.
